## EDUCATION

### Emory University

Atlanta, GA

Bachelor of Science in Data Science; minor: Computer Science

Expected May 2029

**Activities:** Cognition & Visualization Lab, AI & Data Association, Global Research and Consulting Group, First-Year Council

**Fellowships & Programs:** Break Through Tech, Dorm Room Fund Frontier Fellow, AI4ALL Ignite

## SKILLS

**Programming Languages:** Python, R, JavaScript, HTML/CSS, TypeScript

**Framework & Tools:** React, Node.js, Google ADK, BigQuery, GCP, Git/GitHub, NumPy, Pandas, Matplotlib

## PROFESSIONAL EXPERIENCE

### Google

Atlanta, GA

Software Engineer Intern [Project Lead]

Jul. 2026 – Aug. 2026

- Architected a multi-agent AI travel booking assistant with 4 specialized agents across 5+ live APIs for autonomous booking
- Led product strategy for a 5-engineer team with 6-phase roadmap; positioned prototype for integration with Delta & American
- Built A2UI, an agent-driven interactive UI replacing multi-turn chatbot text with structured cards, reducing booking friction

### Computational Vision & Convergence Lab, City University of New York (CUNY)

New York, NY

Research Assistant & Data Collection Team Lead (Advisor: Dr. Hao Tang)

Jun. 2024 – Jan. 2026

- Led user research with 15+ blind/low-vision users to improve navigation features in BuddyWalk & Virtual Cane applications
- Led a team through data collection; published at IEEE/CVF Winter Conference on Applications of Computer Vision (2025)
- Surveyed & documented sidewalk materials across 50+ Manhattan blocks and structured data into CSV for Python analysis

## TECHNICAL PROJECTS

### Invest Atlanta | Python, R, APIs, CSV, GeoJSON

Atlanta, GA

Data Analyst

Jan. 2026 – May. 2026

- Built a geospatial analytics dashboard using Python & spatial joins to estimate fresh food access using 20K+ records of data
- Constructed new measurement methods using land-use patterns to pinpoint remaining food access gaps toward the 2030 target
- Produced analytical metrics used to guide decisions on investment in Tableau, services for neighborhoods and food availability

### Crashly – AI-powered college lodging platform | React, Expo, TypeScript, PostgreSQL, Anthropic, APIs

New Haven, CT

Yale Hackathon Project

Mar. 2026

- Built an AI lodging platform with a multi-stage search pipeline prioritizing network-based matches and strong fallback system
- Developed an AI agent using Anthropic API to rank housing by trust & preferences and generate structured outreach messages
- Engineered a full-stack mobile app with React Native, TypeScript, & Supabase, enabling authentication, and trip coordination

### Nell Hodgson Woodruff School of Nursing at Emory University | Python, R, ArcGIS, APIs, CSV

Atlanta, GA

Data Analyst & Visualization Researcher

Sep. 2025 – Dec. 2025

- Built a public, interactive geospatial map of Georgia's NP workforce across 159 counties using 15,000+ records of data rows
- Performed county-level statistical analysis and spatial mapping across GA counties to identify regions w/ health access gaps
- Integrated and cleaned multi-source healthcare datasets (Licensure, HPSA, Medicaid) to support GA health equity analysis

## LEADERSHIP & COMMUNITY INVOLVEMENT

### Sightshare

New York, NY & Atlanta, GA

Co-Founder & CEO

Aug. 2023 – Present

- Directed strategic communications and fundraising initiatives sustaining multi-state operations across 10+ chapters in 5 states
- Presented and collaborated with 35+ schools on visual impairment and diverse lived experiences; featured in The Korea Daily
- Raised \$5,000+ for eye care initiatives in Ghana and Morocco, supporting 150+ patients through screenings and surgical care

### Emory Entrepreneurship and Venture Management | HackATL

Atlanta, GA

HackATL Associate

Jan. 2026 – Present

- Organize a 300+ participant business hackathon, coordinating event logistics, speakers, judges, and participant experience
- Develop a sponsorship packet and led sponsor outreach, helping secure funding and recruit industry mentors & professionals
- Design hackathon themes and multi-track challenges, guiding startup ideation, final pitches, & structured feedback for judges

## HONORS & AWARDS

- 3rd Place, Greentown Labs TEDxHarvardSquare Climate AI Hackathon (2026)
- Best Project Award, AI.DataLab, Emory University (2026)
- 3rd Place, Emory University Venture Studio Pitch Competition (2026)
